Thank you for choosing iClever! Please read this user manual carefully and save it for future reference.

Package Contents
- 1 x Wireless Keyboard
- 1 x Wireless Mouse
- 1 x Micro USB Charging Cable
- 1 x 2.4G USB Receiver
- 1 x User Manual
- 1 x Warranty Card

Specification of Keyboard
- Dimensions: 348.5 x 129 x 16.5 mm / 14.4 x 4.3 x 0.64 in
- Operating Range: < 10 m / 32.8 ft
- Charge Time: < 2 hours
- Uninterrupted Work Time: 90 hours
- Lithium Battery Capacity: 280 mAh
- Key Life: 3 million clicks
- Standby Time: 90 days

Specification of Mouse
- Dimensions: 101.5 x 60 x 27.5 mm / 4.3 x 2.3 x 1.1 in
- Operating Range: < 10 m / 32.8 ft
- Power Source: 2 x AAA Batteries (not included)
- Uninterrupted Work Time: 160 days
- Button Life: 3 million clicks
- DPI: 1000-1200-1600

Sleep Mode
The keyboard and mouse will enter sleep mode if idle for 3 seconds. Press any key or move the mouse to exit sleep mode.

Charging the Keyboard
Step 1. Connect one end of the included USB cable to a USB charger, and keep the keyboard close to the receiver within 30 cm (0.98 ft).
Step 2. The charging indicator will glow red while the keyboard is charging.
(Note: Output: DC 5.0 V / 500 mA; USB charger is not included)
Step 3. Immediately insert the receiver into the computer within 10 seconds and keep the keyboard close to the receiver within 30 cm (0.98 ft).
Step 4. Done. Ready to use.

Charging the Mouse
Step 1. Turn on the mouse, and keep the mouse close to the receiver within 30 cm (0.98 ft).
Step 2. The charging indicator will glow red when the mouse is charging and will turn off once fully charged.
(Note: Output: DC 5.0 V / 500 mA; USB charger is not included)
Step 3. When Fn lock is activated, you will be able to activate the function by pressing F1-F12 keys simultaneously.
Step 4. Keep the mouse close to the receiver within 30 cm (0.98 ft).
Step 5. The charging indicator will glow red when the mouse is charging and will turn off once fully charged.

FAQ
I can’t connect the keyboard and mouse to my device.
What should I do?
- Make sure your device is on.
- Make sure the 2.4G USB receiver is inserted into a USB port on your device.
- Make sure your keyboard, mouse, and your device are powered.
- Make sure the keyboard and mouse are within 10 m (32.8 ft) of your device.
- Make sure the 2.4G USB receiver is inserted into a USB port on your device.

Note: if connection failure, please follow below steps:
1. Make sure your device is on.
2. Make sure the 2.4G USB receiver is inserted into a USB port on your device.
3. Make sure your keyboard, mouse, and your device are powered.
4. Make sure the keyboard and mouse are within 10 m (32.8 ft) of your device.

FCC Statement
Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
