FAQ

I can't connect the keyboard and mouse to my device.

1. Make sure your device is on.
2. Make sure your USB receiver is inserted into a USB port on your device.
3. Make sure your keyboard, mouse, and your device are powered.
4. Make sure the keyboard and mouse were reset.

Charging the Keyboard

1. Make sure your device is on.
2. Make sure your USB receiver is inserted into a USB port on your device.
3. Make sure your keyboard, mouse, and your device are powered.
4. To reset the keyboard, press and hold the volume up key and the power button simultaneously for 5 seconds.

Sleep Mode

Press any key or move the mouse to exit sleep mode.

Charging the Mouse

1. Make sure your device is on.
2. Make sure your USB receiver is inserted into a USB port on your device.
3. Make sure your keyboard, mouse, and your device are powered.
4. To turn on the mouse, plug in the USB receiver and hold the mouse right key and the wheel button for 3 seconds.
5. To turn off the mouse, plug in the USB receiver and hold the mouse right key and the wheel button for 3 seconds.

Re-pairing:

1. Turn off the mouse and plug out the 2.4G USB receiver.
2. Hold the mouse right key and the wheel button for 3 seconds.
3. Immediately insert the receiver into the computer within 10s and keep the mouse close to the receiver within 30cm (0.98 ft).
4. Connect successfully, and power indicator will be off.
5. Done. Ready to use.

For charging the keyboard only.

1. Make sure your device is on.
2. Make sure your USB receiver is inserted into a USB port on your device.
3. Make sure your keyboard, mouse, and your device are powered.
4. To charge the keyboard, use the provided Micro USB charging cable and plug the opposite end to the charging slot on the keyboard.
5. The charging indicator will glow red while the keyboard is charging.
6. A full charge takes approximately 2 hours.
